What is ETHOS?

The Ethics Online System (ETHOS) is an application that provides the Ethics community a checklist of the status of key parameters associated with Clients, including:

- ❖ Basic Client Information
- ❖ Ethics Compliance attributes and Remedial Actions
- ❖ Client Status
- ❖ Attorney Comments
- ❖ Topic Records associated with PGE Clients, Gifts received by Clients, and Other Advice given to Clients.

Features and Enhancements

Features:

- ❖ ETHOS Dashboard
The Dashboard can be used to change roles, view all client records by specific category and filter searched by specific years or clients.
- ❖ Clients Menu
The Clients Menu can be used to view/add clients, add new Client Record and modify existing Client Records.
- ❖ Admin Menu
The Admin menu can be used to add new users and documentation such as Attorneys, Paralegals, or PGE Handouts.

Enhancements:

- ❖ There are no enhancements to list because this is the initial release of the ETHOS application.

Known Defects

- ❖ There are no known defects to list because this is the initial release of the ETHOS application.
